Decking Cleaner

A powerful cleaner for treated and untreated wood

See the video

Watco Decking Cleaner is a powerful but gentle cleaning solution, specially formulated to remove dirt from timber decking surfaces. It does not contain a fungicide, yet it is also effective in removing algae and lichen.

- Biodegradable and virtually solvent free
- Water based
- Economical concentrated formula

Watco Decking Cleaner is also useful for general cleaning of most hard surfaces, including concrete.

Appearance

- A clear aqueous solution

Availability

- Supplied in 5 litre packs.

Dilution

General cleaning: Mix 1 part Watco Decking Cleaner with 2 parts clean water.

May be used undiluted for heavy spot cleaning.

Shelf Life/Storage

Shelf life is at least 12 months in original unopened containers, if stored under cool dry conditions. If frozen, allow the product to thaw and remix it thoroughly before use.

Surface preparation

Remove any heavy build up of surface contamination and lichen growth by brushing, scraping or other suitable means before applying Watco Decking Cleaner.

Watco Decking Cleaner

Application

Read instructions before use.

Wear impermeable gloves and eye protection.

Apply diluted Watco Decking Cleaner by brush or from a watering can fitted with a rose. Scrub with a stiff bristle brush or broom until clean. Leave for about 5 minutes. Repeat if necessary. Wash away residues with clean water. Allow to dry.

It does not matter if Watco Decking Cleaner solution comes into contact with neighbouring flower beds or grass, and it will not stain concrete.

Limitations

Watco Decking Cleaner is not intended to protect timber against further algae or mould growth.

General maintenance

Regular use on treated or untreated timber will help maintain its appearance and minimise any deep seated dirt.

Cleaning of applicators

Remove as much of the product as possible from brushes and then rinse applicators with clean water.

Safety

Watco Decking Cleaner is not hazardous, but gloves and eye protection are strongly recommended. If eye contact occurs, rinse immediately with plenty of cold water. A Material Safety Data Sheet is available on request or from www.watco.co.uk.

Also available from Watco

Watco Decking Restorer can be used on grey, weathered wood and decking to help restore the original appearance.

Watco Deckgrip is a clear liquid coating with a fine texture to improve the slip resistance of timber decking subject to light or medium pedestrian traffic.

Watco GRP Decking Strips are made of long life fibreglass with a coarse anti slip surface. They can be fixed neatly to the surface of decking and walkways in very heavy wear areas.

Ordering

Available direct from Watco UK Limited and through agents worldwide. All Watco products are sold subject to the Company's Standard Conditions of Sale.

The Company and its representatives are often asked to comment on potential uses of Watco products, which differ from those described in the Company's data sheets.

Whilst in such cases the Company and its representatives will always try to offer helpful and constructive advice, the Company cannot be held responsible for the results of such uses unless they are specifically confirmed in writing by Watco.
